## CAREER OBJECTIVE:

---

Motivated Computer Science graduate with a strong foundation in programming, software development, and problem-solving skills. Seeking a Software Engineer role to apply skills in Java, SQL and C language contributing to innovative solutions. Committed to growth through collaboration and continuous learning in a dynamic environment.

## EDUCATION:

---

JNTUA College Of Engineering Anantapur, Andhra Pradesh

July 2020 – April 2024

Bachelor of Technology- Computer Science and Engineering

CGPA: 8.64

## TECHNICAL SKILLS:

---

### Java:

- Having extensive knowledge in fundamental concepts in Java including features of java, Data types, Variables, Operators, Type Casting, Conditional Statements and Methods.
- Excellent at implementing Object-Oriented Programming (OOP) principles in application development.
- Having good knowledge in Constructors, Arrays and Strings.

### Oracle SQL:

- Having extensive Knowledge in writing SQL Queries.
- Excellent at Performing 'CRUD' operations on RDBMS.
- Experienced in Joins, Sub-Queries for Solving Complex Queries.
- Good in SQL concepts like Operators, Grouping and Functions.
- Extensively worked on SQL statements like DQL, DDL, DML, DTL, and DCL.
- Hands on Experience in Monitoring MYSQL, Oracle SQL.

### HTML:

- Proficient in utilizing semantic HTML tags (e.g., <article>, <nav>, <aside>) to structure web content for improved SEO and accessibility.
- Experienced in creating interactive forms using various input types and attributes (e.g., type, name, value, required) for data collection.
- Skilled in structuring information using ordered (<ol>) and unordered (<ul>) lists, enhancing content organization and readability.
- Competent in employing appropriate HTML attributes (e.g., class, id, src, alt) to add functionality and context to HTML elements.

### CSS:

- Expert in applying CSS selectors (e.g., class selectors, ID selectors, pseudo-classes) to target and style specific HTML elements effectively.
- Strong understanding of CSS text properties (e.g., font-family, font-size, color, line-height) to control text appearance and readability.
- Proficient in managing element presentation using background and border properties (e.g., background-color, background-image, border-style, border-radius).
- Experienced in utilizing CSS layout properties such as padding, margin, position (e.g., relative, absolute, fixed), and display (e.g., block, inline-block, flex, grid) for responsive design.

## JavaScript:

- Solid understanding of fundamental JavaScript keywords (e.g., let, const, var, function, return) and core data types (e.g., string, number, boolean, object, array).
- Proficient in utilizing JavaScript operators (e.g., arithmetic, comparison, logical) to manipulate data and control program flow.
- Experienced in implementing control statements (e.g., if/else, switch, for, while) to create dynamic and interactive web applications.
- Skilled in defining and calling JavaScript functions to encapsulate reusable code blocks and enhance code organization.
- Competent in working with JavaScript objects and arrays to store and manage collections of data efficiently.

## PROJECT WORK:

---

### E-Commerce Online Shopping Website

**Technologies Used:** Java, JDBC, MySQL

#### Abstract:

- Developed a comprehensive E-Commerce Online Shopping Web Application comprising three modules: Admin, Retailer, and Buyer.
- Enabled seamless online product buying and selling, with buyers managing purchases and retailers handling product listings and orders, all supervised by admin controls.
- Delivered a responsive and user-friendly platform leveraging web technologies to ensure efficient and scalable functionality.

## INTERSHIPS:

---

### 1. Full Stack Web Development - Revature - Paid Internship

Aug 2024 – Sep 2024

- Completed a 2-month paid internship focused on full-stack web development.
- Developed and maintained web applications, improving performance and scalability in a collaborative environment.
- Acquired practical knowledge on project building tools including Maven and understand MVC architecture to develop project.

## STRENGTHS:

---

- **Strong Problem-Solving Skills:** Ability to analyze complex challenges and implement effective solutions efficiently.
- **Self-Motivated:** Proactively driven to achieve goals and continuously enhance skills in a dynamic work environment.
- **Adaptable and Optimistic:** Thrives in fast-paced, evolving environments with a positive and growth-oriented mindset.

## HOBBIES:

---

- **Passionate about Sci-Fi movies:** Enjoy exploring innovative and futuristic themes, enhancing creativity and imagination.
- **Avid Traveler:** Enthusiastic about experiencing diverse cultures and environments, fostering adaptability and open-mindedness.
- **Cricket Enthusiast:** Actively participates in cricket, promoting teamwork, discipline, and strategic thinking.

## DECLARATION:

---

I hereby declare that the information furnished above is true to the best of my knowledge.

S.Amanullah
